## **Why do we recommend this trip?**

The Atlantic Road was opened in 1989 and leads to Averøy for on 8 km with stone fillings and over 12 bridges, over islands and skerries.

The street is a listed sight and is classified as a national tourist street. It is a popular filming location for commercial advertising, was voted the world's best road trip and was awarded the title "Norwegian Building of the Century". In 2009 the Atlantic tunnel from Averøy to Kristiansund was opened. Together they form the second permanent link between Kristiansund and Molde.
